General Financial and Other Information

General Government Functions

The Commissioners Court is the governing body of the County. The Texas Constitution specifies that the Court consists of a County Judge, who is elected at large and serves as presiding officer, and four County Commissioners elected by the voters of the individual precinct. The Local Government Code prescribes the duties and grants authorities of the Commissioners Court and other County Officers, relating to financial management. In compliance with State Statutes, the Commissioners Court maintains budgetary controls to ensure that provisions embodied with the annually appropriated budget are met for most county functions. According to the budget laws of the State of Texas, expenditures may not exceed the amount appropriated for each fund.

Internal Control Structure

The operating controls are shared by the Commissioners' Court, which is the governing body, and the County Auditor, who is appointed by the District Judges. The County Auditor has the basic responsibilities for maintaining the records of all financial transactions of the County and "examining, auditing, and approving" all disbursements from county funds prior to their submission to the Commissioners Court for payment.

The Commissioners Court sets the tax rate, establishes policies for county operations, approves contracts for the county, and develops and adopts the county budget within the resources estimated by the County Auditor.

Cash Management

The County Treasurer, by statute, serves as the custodian of county funds and is responsible for the receipt and disbursement of all monies owed to or by the County. The County Treasurer is required to maintain accurate records of all transactions of his/her office and to regularly report to the Commissioners Court.

The Commissioners Court selects qualified banks to serve as county depositories, in which the County Treasurer deposits all monies received. Monies that are temporarily idle during the year are deposited in TEXPOOL.

Risk Management

The County participates in the Texas Association of Counties Workers' Compensation Pool to cover job related risk. Development of a limited Risk Management Program (the Health and Safety Program) has resulted in savings in Workers' Compensation Insurance premiums. Additionally the County annually reviews with its carrier all liability coverage, making necessary amendments and/or adjustment to policy deductibles and limits.

Independent Audit

The County engages a firm of certified public accountants annually to perform and audit of the general purpose financial statements. Accounting records for government fund types are maintained on a modified accrual basis, with revenue being recorded when available and measurable, and expenditures being recorded when services or goods are received and the liabilities incurred. Certain funds not budgeted by the County and for which the County has no regulatory authority are reported within the annual audit, such as the County Clerk's and District Clerk's Expendable Trust Funds.

Texas County Government

County Government structure is spelled out in the Texas Constitution, which makes counties functional Agents of the State. Thus, counties, unlike cities, are limited in their actions to areas of responsibility specifically spelled out in laws passed by the Legislature. The statutory duties and responsibilities of county officials in Texas are numerous. County Government's principal focus is on the judicial system, health and social services delivery, law enforcement, and road construction. In Texas, counties have no ordinance-making powers other than those explicitly granted by the state law.

Texas has 254 counties with similar organizational features; a governing body (the Commissioners Court) consisting of one member elected at large (the County Judge) and four Commissioners elected by precincts. The County Judge is both presiding officer of the Commissioners Court and Judge of the County Court and is named for his or her actual judicial responsibility.

The Commissioners Court serves as both the legislative and executive branch of County Government, and has budgetary authority over virtually all county department's, including those headed by other elected officials.

In Texas County Government, there is not a hierarchy level for elected county officials, as all elected officials answer directly to the voters. The Commissioners Court authority over county offices, including elected offices, is limited to its authority to approve and disapprove the budgeted funds appropriated for each departments activity.

Elected offices created by the Texas Constitution include County Judge, Commissioners, Constable, County Clerk, District Attorney, District Clerk, Justice of the Peace, Sheriff, Tax Assessor Collector, and Treasurer. These officers are elected at large with the exception of the Commissioners, Constables, and Justice of the Peace, which are elected by the individual precincts.

Offices created by legislative act include State District Judges, County Court at Law, County Auditor, Community Supervision and Corrections, and Juvenile Probation. The State District Judges and the County Court at Law Judges are elected at large. A Val Verde County chart is located on the next page.

Fund Overview

Governmental Funds - The general government functions are reported in the General, Special Revenue, Debt Services, and Capital Project Funds. The focus is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's annual financing and budgeting requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental Funds

General Fund - As a major fund, the general fund is the general operating fund of the County. The general operating fund accounts for all resources not required to be accounted for in other funds. This fund provides for the general government or daily operations for the County. The primary sources of revenue to the general fund are property tax, sales tax, fees and charges for service.

Road and Bridge Fund - The Road and Bridge Fund is the major operating fund for the repair and maintenance of the County's infrastructure. The primary source of revenue to the Road and Bridge Fund consist of the \$10.00 fee assessed on motor vehicle registration, statutory auto registration fees, state funds received on lateral roads, and fines collected for traffic violations.

Special Revenue Funds - Fund specifically required to account for revenues and expenditures restricted for specific purposes. Special revenue funds include the Law Library Fund, Records Management and Preservation Funds and the Courthouse Security Fund.

Debt Service Funds - The Debt Service Fund is used to account for the payment of principal and interest on bonded long-term indebtedness. Primary sources of revenue include ad valorem taxes and interest income.

Capital Project Funds - Funds specifically designed to account for the acquisition or construction of major capital facilities, major capital improvements, and/or the acquisition of equipment. Capital Project Funds may or may not qualify as major funds and are tested on an annual basis.

Financial Summaries Overview

This budget document includes appropriations for all governmental funds, unless otherwise noted. The audited financial statements include various fiduciary funds that do not fall under the jurisdiction of the Commissioners Court and therefore not reported in this document. Special budgets are adopted throughout the year for grant funds which are not included in this document; however, any county cash match applicable to the grant is included.

Revenues

Revenues are most important to the budget process, for without funding there would be no resources to fund the expenditures. County government has very limited resources from which to draw upon and almost all are strictly determined and limited by the state government with very few locally optional alternatives. Revenue estimates are provided by the County Auditor and consist of a combination of trend analysis, economic forecast, and special conditions. Revenues are categorized in the following manner:

Property Tax - Includes current year ad valorem tax collections from the period of October 1st through June 30th. It also includes delinquent ad valorem tax collections for the current year received after July 1st, or any prior year taxes received.

Sales Taxes - Includes sales tax and occupational tax revenue received from the Texas State Comptroller for taxes collected in Val Verde County for the twelve month period of October 1st through September 30th.

Other Taxes - Includes all other taxes received such as liquor drink tax.

License and Permits - Includes revenues received from issuance of a license or permit, such as alcohol or salvage yard permits.

Interlocal Agreements - Includes amounts received from other governments for services performed. Agreements include commissions received from taxing entities and law enforcement services rendered to school districts.

Fees of Office - Fees charged for services performed by the County offices.

Fines and Forfeitures - Includes fines assessed by the courts and bond forfeitures.

Interest - Revenue received as interest from investments and bank accounts.

Miscellaneous - Includes revenue not classified in another category.

County Commissioner

The job of the County Commissioner calls for hands-on service delivery, as well as policy-making decisions about a variety of important matters.

Four Commissioners, each elected from a quarter of the County's population, serve along with the County Judge on the Commissioners Court. Many people know that the Commissioner's Court is responsible for building and maintaining the roads and bridges of the county. Your Commissioner has individual responsibility for the roads in his precinct.

The Commissioner's Court also has the responsibility to adopt the budget and tax rate that is sufficient to fund the personnel, equipment and infrastructure necessary to deliver the services provided by the County. Typically, the Commissioners Court is responsible for conducting business on behalf of the county, and only the Commissioners Court can enter into contract on behalf of the County.
