## Budget Overview

The Val Verde County Budget for Fiscal Year Ending 2019 was adopted by Commissioners' Court on September 29th, 2018. This budget will be used as the management device for budgetary control of Val Verde County October 1, 2018 through September 30, 2019.

This budget is a direct result of tremendous cooperation and effort on behalf of all the Elected and Appointed Officials, Department Heads and everyone who provides valuable insight and expertise on items that are of major concern in regards to revenues and appropriations. Priorities include working together to make manageable firm decisions today to avoid unmanageable or unsustainable decisions in the future, protecting our ability and capacity to operate in subsequent budget cycles along with meeting the demands for essential and required services for Val Verde County citizens.

### Property Tax Rates

Commissioners' Court continues to maintain a conservative philosophy that is reflected in the overall budget and financial policies. The court was able to sustain and adopted the same total tax rate as the prior fiscal year of \$.5237 which is the lowest of the surrounding and comparable counties (*see Historical Tax Rates, Area County Tax Rates*).

### Home Values

The average home rose in value from \$108,241 to \$109,231 a .91% increase. New property added to the tax roll for the first time in tax year 2018 was \$35,039,470 of that, \$24,756,030 was from new homes.

## Revenues

### Property Taxes

Certified Gross Market Values rebounded by approximately \$240 Million or 6.043% after falling in the prior year (*see Historical Values*). Property taxes with penalties and interest account for 44% of revenue for Val Verde County on an all revenues basis and 68% of the General Fund revenues (*see All Funds and General Fund Chart*).

### Sales Tax

Val Verde County charges a 1/2 percent sales tax on items. Sales tax may be flat to a small decrease there is a chance that sales tax could temporarily increase dramatically, due to construction of pipelines in the county. At this time, it would not be prudent nor conservative to speculatively budget increased revenues for sales tax.

### Intergovernmental

Val Verde County continues to have a substantial percentage of intergovernmental revenue and grants from federal and state allocations. In total, 28% of all revenues received (*see All Funds Chart*) are intergovernmental as they are an important part of funding the county needs. Receiving grant funds reduces the tax rate needed to operate the county for projects and services. If the county did not receive grant funds either the tax rate would have to go up proportionally or services and projects would have to be cut. Continued grant funding is a reflection of exceptional monitoring by the Val Verde County grant department, as most grant funds are only awarded to counties who have proven appropriate accounting practices, standards and procedures.

### Charges For Services

Val Verde County is expected to see an estimated increase this year of 30%. This is due to increase commissions on auto sales from the state, along with contract renegotiations with the GEO Group, who the county partners with in the justice system.

### Other Financing Sources

Val Verde County has not taken out any new debt obligations in this budget. The county is well within its Texas State Constitutional limits for outstanding debt of 25%. Val Verde County maintains a rate of less than 1% and is expected to be debt free in 2024 (*see County Debt*).

### Other Revenues

The remaining revenue sources: Licenses and Permits, Miscellaneous, Fees and Fines are not considered to have a material increase or decrease.

## **Appropriations**

### Departmental Budgets

Departmental budgets (less salaries) were reduced in the prior fiscal budget and the majority of departments were held steady in the current budget (*see Departmental Pages*). Officials and department heads had the foresight and monetary management skills to control their costs by implementing or improving efficiencies to make careful expenditure decisions of their appropriated budgets, to meet the public's demand for services. This effort should not go unmentioned or unnoticed.

### Employee Compensation

Commissioners' Court has authorized a salary increase of 5% which is comprised of a 3% cost of living increase to keep pace with the Consumer Price Index (CPI) along with a 2% longevity increase. Salary increases were capped at \$3,750 per individual so higher earners received a lower percentage. Healthcare cost increased by \$267 per employee for estimated increase of \$63,153. The court chose to fund this increase so employees could keep the same healthcare deductible of \$250. Retirement costs rose from 11.81% to 12.00% that the county must fund for every dollar spent on employee compensation for the employee's retirement. The county participates in Texas Counties and Districts Retirement pool (TCDRS). For more information on TCDRS please see their website at [www.TCDRS.org](http://www.TCDRS.org). Commissioners' Court continues to consider human capital its most valuable resource and strives to keep healthcare costs low and retirement benefits appealing to attract and retain high quality employees.

### Capital Expenditures

Val Verde County continues to blend capital expenditures with pay as you go and tax notes for capital replacement and new additions. The major items this year are the addition of new Judicial and Public Safety Software Odyssey™, Voice Over Internet Protocol (VOIP) system and a vehicle for the County Agent. The replacement items include: 1/3 of county workstations which have reached end of life and replacement of half of the Sheriff's handheld radios. Of the items selected this year for either new addition or replacement, these items should reduce maintenance costs and improve efficiency leading to lower costs and better services for Val Verde County citizens. For a detailed list of items (*see Capital Expenditures*)

### Capital Projects

Val Verde County funds capital projects with grants, pay as you go, tax notes and general obligation bonds. No new debt has been taken out this year to fund projects. The county continues to fund the building of the women's shelter, animal control facility from the General Fund revenues and has transferred out \$1 million from the General Fund to the Fontera Road project which is funded from a blend of State grants and General Fund revenues. For capital projects the county remains utilizing a tier system of first trying to secure funding for projects with grants, program revenues, charges for services, special assessments then finally General Fund revenues. The court believes property taxes should be the last revenue stream to fund a capital project. For more information (*see Capital Projects*).

## Summary

### General Fund Balance

Commissioners' Court is going to draw down its unassigned fund balance by approximately \$2 million dollars for funding of Capital Expenditures and Capital Projects. The remaining fund balance is still within the recommended minimum level by the Government Finance Officers Association (GFOA) of 17% or 60 days. The Auditor's Office has complied with the GFOA risk assessment to determine that no unusual or infrequent conditions exist at this time to warrant holding a higher balance.

### Long Term Project Goal

The long term consolidated vision of Commissioners' Court is to secure funding for a new Judicial Center which will house all the departments related to judicial duties (*see Departments by Function*). In bringing this project to fruition the court is following a multi-directional plan of increasing its bond rating and exploring financing opportunities. Many factors are weighed when rating agencies rate any entity including population growth, economic climate, financial stability, tax base expansion and diversification, coupled with sound management practices, policies, and the balance of unreserved funds in the General Fund. The court believes by adopting this campaign it will have a synergistic effect saving the Val Verde County citizens millions of dollars in interest cost and reduce the amount of time to get the Judicial Center Project started.

### Conclusion

This budget meets the demands of a fiscally responsible growing county who has planned for the possibility of increased unfunded mandates and revenue caps on property taxes. By maintaining prudent and proper fund balance, reducing operational cost with capital purchases and using grant funds to aid in projects and services. The court feels it can endure or be properly positioned for, the changes the 86th Texas State Legislation may enact.

Considerable time was spent reviewing budget requests for compliance with the overall short term and long term goals of the county. I would like to express my appreciation to the Auditors Office staff for their hard work and dedication in helping craft the Fiscal Year End 2019 budget. They do such an incredible job and are to be commended for their assistance throughout the budget process and the entire fiscal year. Producing the County Budget is very much a team effort and the specific skills of each employee makes the budget process a success.

Respectfully,

Matthew S. Weingardt, CPA  
Val Verde County Auditor

# County Information

## **Texas County Government**

County Government structure is spelled out in the Texas Constitution, which makes counties functional Agents of the State. Thus, counties, unlike cities, are limited in their actions to areas of responsibility specifically spelled out in laws passed by the Legislature. The statutory duties and responsibilities of county officials in Texas are numerous. County Government's principal focus is on the judicial system, health and social services delivery, law enforcement, and road construction. In Texas, counties have no ordinance-making powers other than those explicitly granted by the state law.

Texas has 254 counties with similar organizational features; a governing body (the Commissioners Court) consisting of one member elected at large (the County Judge) and four Commissioners elected by precincts. The County Judge is both presiding officer of the Commissioners Court and Judge of the County Court and is named for his or her actual judicial responsibility.

The Commissioners Court serves as both the legislative and executive branch of County Government, and has budgetary authority over virtually all county departments, including those headed by other elected officials.

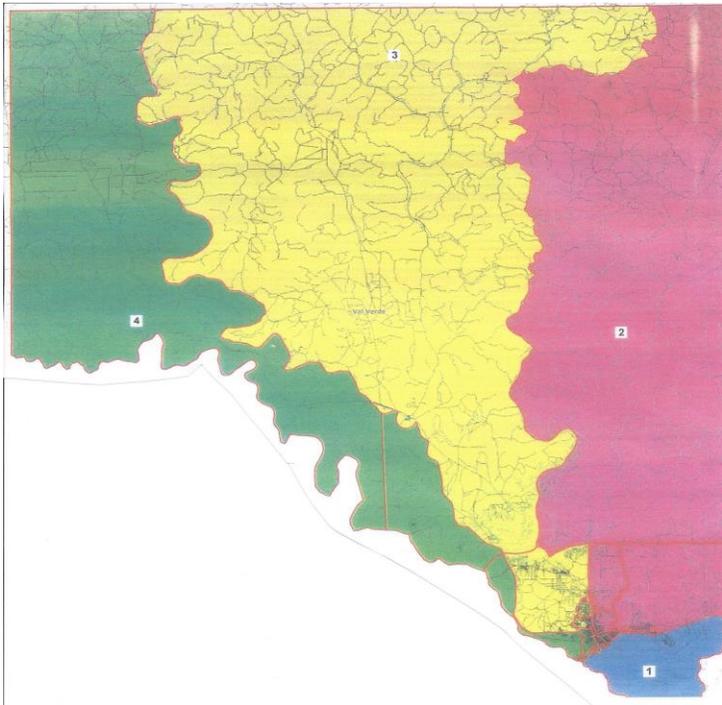

In Texas County Government, there is not a hierarchy level for elected county officials, as all elected officials answer directly to the voters. The Commissioners Court authority over county offices, including elected offices, is limited to its authority to approve and disapprove the budgeted funds appropriated for each departments activity.

Elected offices created by the Texas Constitution include County Judge, Commissioners, Constable, County Clerk, District Attorney, District Clerk, Justice of the Peace, Sheriff, Tax Assessor Collector, and Treasurer. These officers are elected at large with the exception of the Commissioners, Constables, and Justice of the Peace, which are elected by the individual precincts.

Offices created by legislative act include State District Judges, County Court at Law, County Auditor, Community Supervision and Corrections, and Juvenile Probation. The State District Judges and the County Court at Law Judges are elected at large.

### **Risk Management**

The County participates in the Texas Association of Counties Workers' Compensation Pool to cover job related risk. Development of a limited Risk Management Program (the Health and Safety Program) has resulted in savings in Workers' Compensation Insurance premiums. Additionally, the County annually reviews with its carrier all liability coverage, making necessary amendments and/or adjustment to policy deductibles and limits.

### **Independent Audit**

The County engages a firm of certified public accountants annually to perform and audit of the general purpose financial statements. Accounting records for government fund types are maintained on a modified accrual basis, with revenue being recorded when available and measurable, and expenditures being recorded when services or goods are received and the liabilities incurred.

### **Accounting System**

The County's accounting records for government fund types are reported using the current financial resources measurement focus and modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. However, debt services expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

The County budget is developed on a cash basis. Revenues are recognized only when earned and expenditures are recognized when incurred. Under State law, expenditures cannot exceed appropriations. In addition, the total of the appropriated budgets for the General Fund and certain Special Revenue Funds cannot be increased once the budgets are adopted unless revenue is certified by the County Auditor or an emergency budget amendment by the court.

## **Budget Policy and Procedures**

The Val Verde County Commissioners' Court, under budgetary laws established by the Texas legislature is required to adopt an annual budget for all governmental fund types to cover all the proposed expenditures of the county government, and to levy a tax sufficient, when considered with other revenues and available funds to provide for these expenditures. This policy is intended to serve as a comprehensive guide for all county budgeting policies and procedures and should be reviewed and adopted annually.

### **Budget Policies**

#### **Balanced Budget**

The annual budget process allocates available funding in a structurally balanced budget between the needs of employees, departments, and the needs of citizens for increased services, while preserving financial stability for the County organization.

#### **Revenue Policy**

The County will maintain a stable and diversified revenue system to protect it from short-term fluctuations in any single revenue source and whenever applicable, establish user fees and charges permitted by law at levels associated with the direct and indirect costs of providing those services. Furthermore, the County will annually evaluate fees and charges to assure that total costs are covered and will adjust accordingly to keep pace with the cost of providing those services.

#### **Tax Rate Policy**

The Commissioners' Court believes raising taxes should be the last resort to funding continued services. Every effort will be made to avoid increasing the tax rate, including, but not limited to, eliminating inefficient processes or functions.

#### **Indebtedness Policy**

The County will confine long-term debt to capital projects, if borrowing is less than the inflation rate.

#### **General Level of Spending Policy**

All departments should expect to continue operations at the same level as this year. Exceptions may be requested, if fully documented, but may be granted only if revenues increase beyond currently foreseeable levels.

Department heads should request approximately the same funding they are receiving this year. The County Judge will make adjustments for inflation.

**Investment Policy**

The County annually adopts a formal investment policy that is consistent with the Public Funds Investment Act and Public Funds Collateral Act. The County follows the "prudent person rule" in investment decisions.

**Salaries and Benefits Policy**

Salaries and benefits should rise with inflation and leave room for longevity raises, if permitted.

**Fund Balance Policy**

The County practices conservative budgeting and adopted a fund balance policy that required the County to maintain an unassigned fund balance in the General Fund not less than 17% of annual expenditures, which is the minimum recommended level for Government Finance Officers Association (GFOA).

**Budget Procedures**

The County follows the procedures below in establishing the budget.

Encumbrance accounting is used for all funds. Encumbrance accounting means that an estimated cost is recorded on the books at the time of an order of goods and services so that all obligations are booked. When the actual cost is known, it is booked, and the encumbrance is reversed.

Val Verde County's fiscal year begins on October 1st and ends on September 30th.

The budget process starts in May with establishing the budget calendar and policy. Then by the end of May, department heads project their financial requirements for the upcoming year. The Budget Worksheet is a guide of initial budget requests. Departmental annual requests are then submitted by the department to the County Judge by June 1st.

The County Judge and County Auditor compile the initial requests and by mid June and July budget workshops are held for each department. Commissioners' Court, who includes the County Judge and the four County Commissioners, oversees the budget workshops. The workshops allow department heads the opportunity to discuss with Commissioners' Court any changes in their budget, and items that are a priority. The public is invited to attend all budget workshops, which are posted according to the Open Meetings Act. The County Auditor prepares an estimate of available resources in each fund for the upcoming fiscal year. Expenditures budgeted in the various funds may not exceed the fund balances as of the first day of the fiscal year.

In August, the County Auditor prepares the proposed annual operating budget to be presented to Commissioners' Court. Public hearings are held on the proposed budget.

The Commissioner's Court must adopt an annual operating budget by a majority vote before October 1st.

### **Amending the Budget**

Except through certification of the County Auditor and through approval by Commissioners Court, the total amount appropriated in the budget cannot be amended. However, funds may be reallocated to different expenditure accounts. These types of changes to the budget occur in the form of budget transfers.

### **Budget Goal**

Val Verde County is committed to receiving the Government Finance Officers Association Distinguished Budget Presentation Award for the fiscal year 2019. The GFOA established the Distinguished Budget Presentation Awards Program (Budget Awards Program) in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality that reflect both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's best practices on budgeting and then to recognize individual governments that succeed in achieving that goal.

# Fund Overview

## **Fund Overview**

**Governmental Funds** - The general government functions are reported in the General, Special Revenue, Debt Services, and Capital Project Funds. The focus is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's annual financing and budgeting requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

### **Governmental Funds**

**General Fund** - As a major fund, the general fund is the general operating fund of the County. The general operating fund accounts for all resources not required to be accounted for in other funds. This fund provides for the general government or daily operations for the County. The primary sources of revenue to the general fund are property tax, sales tax, fees and charges for service.

**Road and Bridge Fund** - The Road and Bridge Fund is the major operating fund for the repair and maintenance of the County's infrastructure. Revenues are categorized in the following manner:

*Property Tax* - Includes current year ad valorem tax collections from the period of October 1st through June 30th. It also includes delinquent ad valorem tax collections for the current year received after July 1st, or any prior year taxes received.

*Sales Taxes* - Includes sales tax and occupational tax revenue received from the Texas State Comptroller for taxes collected in Val Verde County for the twelve month period of October 1st through September 30th.

*Other Taxes* - Includes all other taxes received such as liquor drink tax.

## COUNTY DEBT

The County is authorized under Article III, Section 52 of the State Constitution to issue bonds payable from ad valorem taxes. There is no constitutional or statutory limit as to the number of bonds issued pursuant to such constitutional provision. However, the amount of bonds which may be issued is limited to 25% of the assessed valuation of real property in the County. The Attorney General of Texas has administratively by rule limited the amount of bonds the office will approve to an amount which produces debt service requirements not to exceed .40 cents of the foregoing .80 cents maximum tax rate, calculated at 90% of collections. Counties that have adopted the .30 cents per \$100 Farm-to- Market/Flood Control Tax may also pledge this tax for debt service for related projects.
